

*District Committee Member – Welcome Letter*

*May 2015*

*Fellow members of Alcoholics Anonymous and Friends of the Fellowship,*

*Hello! My name is Helen B. and I am currently serving as the District Committee Member for District 6. Our district is one of 23 within the San Diego and Imperial Area (Area 8) of Alcoholics Anonymous. According to the Area 8 Structure and Guidelines (which can be found on the Area 8 website at [www.area8aa.org](http://www.area8aa.org)) District 6 is defined as those groups/meetings held within the following geographic boundaries:*

- North: Interstate 8 (I-8), we share this border with District 5*
- South: Laurel Street, we share this border with District 7*
- East: Interstate 163 (I-163), we share this border with District 19*
- West: Interstate 5 (I-5), we share this border with District 14*

*The District is 3 miles North-to-South and 2 miles East-to-West.*

*Although we cover a relatively small geographic area compared to many of the other Area 8 districts, we have many individual members who remain very active within the General Service Structure, as well as their home groups. I believe that what we may lack in quantity of meetings, we make up for through the quality of the sobriety that can be found within District 6!*

*The following individuals are participating in service at the district level in District 6:*

- Helen B. | DCM for District 6*
- Renee R. | Treasurer*
- Renea C. | Secretary and GSR for the Sunday Midday Group*
- Blaine H. | Registrar and GSR for the San Diego Doctor's Step Study*
- Jonathan S. | GSR for the Mission Hills Beginners*

*Along with our service positions listed above, we each participate on at least one of the standing committees within Area 8. The committees with current District 6 representation include:*

- Accessibility Committee*
- Contact on Release Committee (A Subcommittee of SDIAIC)*
- Cooperation with the Professional Community Committee (CPC)*
- San Diego Hospitals and Institutions Committee (SDIAIC)*

*Sincerely,*

*Helen B.*

*District 6 – DCM*
